What is considered a PRO-AM COUPLE?

A Pro-Am couple is considered to be a couple where one participant is the Professional and other is an Amateur. A Professional Dancer is considered a dancer who teaches, performs or competes for a living and receives financial compensation for their work as a dancer and hence would be ineligible to compete as an Amateur. An Amateur Dancer is a person for which dancing is recreational and who has not received financial gain from teaching and/or performing.

Objective

The objective of this competition is for the competitors (couples), to showcase their interpretation of Salsa music through their dance representation without emphasizing on tricks or dips. In other words, the tricks should not be the most important part of your routine.

- There is no placement structure in the preliminary round. Only qualifying competitors advancing to the finals will be announced.

- Performing a choreographed routine will result in immediate disqualification from the competition.
